At the close wheat was from to to feel lower and the decline in corn and oats was practically lower.

Provisions bad! a heavy appearance most of the day and had a sharp break near the session's close.

CHICAGO. Sept. 16.—Optimism as to an early settlement of the Morocco dispute acted today in favor of lower prices for wheat. The close was it to idic under last night. Net declines formed the rule, too, in all the other leading staples—corn, it to idic, oats, idic to idic, oat hop products, it to 50c.

The wheat market here followed the lead of Liverpool and one of the principal causes of the weakness at the British port was confidence that the African cloud would soon be dispelled. Then, too, French, German and Russlan crop reports were better than had been expected Pressure of Canadian and Australian wheat at Liverpool had also a roundabout bearing here. Liberal flour sales at St. Louis brought about a temporary upturn, but prices again receded owing to poor cash demand. The close, however, was sleady—December ranged between 53c and 55c, with last sales 165c down at 51 2052c. Corn was weak under selling by helated longs, who noted the excellent weather conditions for the growing crop. December fluctuated between 632c and 642c closing weak 167c off, at 631664c.

Cash grades were easy; No. 2 yellow sold at 632664c.

Reciprocity talk made oats heavy. December touched as high and low levels 456/445c and 445c with the close ic net lower at 45c.

Much commission selling weighed on provisions. The outcome was a decline 3853-Mollie Heal 3869-R. Guiver 1877-A. I. Stone 20 Much commission selling weighed on 172 provisions. The outcome was a decline 9 all around—pork. 60c; lard, 72c to 156 172c, and ribs, 72c to 25c.
